- VC** Tree and Hedge Clearance
- Trenchless crossing including work area and access
- Open cut works rural / semi rural
- Open cut streetworks
- Compound in use
- Reinstatement
- SE** Seeding
- PL** Planting

i
 We are now releasing a local, area specific timeline for installation. This gives an indication of when we expect to be working in each area. We'll let you know at least two months in advance of any work starting and provide further detail of expected duration. Since we are currently progressing detailed design, the timetable may be subject to some additional change as we finalise our plans and work to reduce overall disruption during construction. Please be assured that if our plans change, we'll keep you informed. Once the pipeline is buried, it will be a quiet neighbour.

Phasing of works – Winchester
